## Students may apply for and receive a refund under the following conditions:

- If a course is dropped by Monday, September 6 for on-campus courses, or by Friday, September 10 for off-campus courses, there will be a 100% refund of tuition and refundable fees. Courses can be dropped online by using the self-service option through the Student Portal (MyWCC) when college is closed. **Please Note:** In order to receive a 100% refund for an on-campus or online class (or classes) after 12:00 noon on Friday, September 3, the class(es) must be dropped online no later than Monday, September 6. Otherwise, the refund amount will drop to 75%.
- If a course is dropped during the first three (3) weeks of classes, students will be returned only a percentage of their tuition according to the schedule below.
- In the event of college-cancelled courses, 100% of tuition is refunded.

**General Guidelines:** Refund schedules apply to all students, including those who were allowed to register late. Refunds are not processed until after the end of the refund period (end of third week). It takes approximately six weeks from the start of the semester before a refund check is issued. If payment was made to Westchester Community College by credit card, a credit card refund can be processed at the same time the student drops a course (or courses), if the request is made at the Business Office in ADM-125.

If payment was made with a Financial Aid Award Voucher, you must consult the Financial Aid Office before dropping courses, because changing credits may make you ineligible for your aid.

You will be responsible for any payment due.

## ANNOUNCING TWO NEW PROGRAMS!

### **Computer Security & Forensics (CIS) - Associate of Applied Science and Certificate**

The Computer Security & Forensics (CIS) curriculum prepares students for a career in the fastest growing sector of Information Systems. As digital communication and business opens to a wider audience of varying interests, computers and networks become more complex and more susceptible to security breach. The program is intended for students interested in computer information systems, information management, business, or computer science who want to be ready to confront these critical issues.

### **Digital Filmmaking - Associate of Science and Certificate**

Westchester County attracts a large pool of practicing film professionals and employers, making the college a fitting location for a filmmaking program. Students will receive high-quality instruction, professional guidance, hands-on experience, and a background in the liberal arts that will prepare them for transfer and/or entry into film-related careers in the 21st century.

## Part I: Meningococcal Meningitis

For all students regardless of age, NYS Public Health Law mandates that you read and sign Part I.

**Meningitis disease** is a severe bacterial infection of the bloodstream or meninges (a thin layer covering the brain and spinal cord). It is a relatively rare disease and usually occurs as a single isolated event. Clusters of cases or outbreaks are rare in the United States. It is transmitted through air via droplets of respiratory secretions and direct contact with an infected person. Direct contact, for these purposes, is defined as oral contact with shared items such as cigarettes or drinking glasses or through intimate contact such as kissing. Although anyone can come into contact with the bacteria that causes meningococcal disease, data also indicates certain social behaviors, such as exposure to passive and active smoking, bar patronage, and excessive alcohol consumption, may put students at increased risk for the disease. Patients with respiratory infections, compromised immunity, those in close contact to a known case, and travelers to endemic areas of the world are also at increased risk.

The early symptoms usually associated with meningococcal disease include fever, severe headache, stiff neck, rash, nausea, vomiting, and lethargy, and may resemble the flu. Because the disease progresses rapidly, often in as little as 12 hours, students are urged to seek medical care immediately if they experience two or more of these symptoms concurrently. The disease is occasionally fatal. The symptoms may appear 2 to 10 days after exposure, but usually within 5 days. Antibiotics can be used to treat people with meningococcal disease. Only people who have been in close contact (household members, intimate contacts, health care personnel performing mouth to mouth resuscitation, day care center playmates, etc.) need to be considered for preventative treatment. Such people are usually advised to obtain a prescription for a special antibiotic from their physician. Casual contact as might occur in a regular classroom, office or factory setting is not usually significant enough to cause concern.

Presently, there is a vaccine that will protect against some strains of meningococcus. It is recommended in outbreak situations, and for those traveling to areas of the world where high rates of the disease are known to occur.

The meningococcal vaccine has been shown to provide protection against the most common strains of the disease, including serogroups A, C, Y and W-135. The vaccine has shown to be 85 to 100 percent effective in serogroups A and C in older children and adults. The vaccine is very safe and adverse reactions are mild and infrequent, consisting primarily of redness and pain at the site of injection lasting up to 2 days.

If you wish to receive the meningococcal vaccine, contact your health care provider. The cost of the vaccine varies but is usually around \$90. The Ossining Open Door, Tarrytown Open Door and Port Chester Open Door Facilities provide the vaccine.

### PART I: MENINGOCOCCAL MENINGITIS RESPONSE

To be completed & signed by student or parent/guardian for students under age 18.

## Part II: Measles, Mumps & Rubella

For all students born on or after January 1, 1957, NYS Public Health Law mandates that you provide signed documentation of proof of immunity against measles, mumps & rubella on or after your first birthday. Students will not be permitted to register for classes without proof of immunization. Students who have not complied within thirty days will be withdrawn without refund, from all classes.

**MEASLES** - Immunization (2 injections) on or after January 1, 1968 (at least thirty days apart) or positive titer or date of physician documented disease.

**Note:** Immunizations before January 1, 1968 are acceptable if there is proof that live vaccine was used.

**MUMPS** - Immunization (1 injection) on or after January 1, 1969 or positive titer or physician documented disease.

**RUBELLA** - Immunization (1 injection) on or after January 1, 1969 or positive titer. (Proof of disease not acceptable.)

You may provide any health records which demonstrate proof of immunity from prior schools, physicians or a local health department. You can also be immunized by your doctor or health care provider or you can call the county health department for free immunization 914-231-2523. If you hold religious beliefs which prohibit receiving immunizations for Measles, Mumps & Rubella, contact the Health Office at 914-606-6610.

### **Extension Center Name Changes**

We have changed the name of two of our extension centers. The Westchester Art Workshop in White Plains is now the Westchester Community College Center for the Arts. From a few borrowed rooms in a school house in 1926, to its own exclusively designed space with state-of-the-art lab facilities, Westchester Art Workshop has continued to thrive and expand throughout the years. We feel that this new name is in keeping with the spirit of the center's distinguished and dynamic past, while better reflecting the diversity and level of its activities, programs, and mission. The name also reflects this institution's long-held status as the center for art education in Westchester County.

Meanwhile, The Peekskill Art Workshop, which occupies space at our Peekskill Extension Center, will now be referred to as The Center for the Digital Arts. This new name acknowledges the tremendous expansion of the digital arts offerings at one of the Hudson Valley's leaders in this field.

# Important Policies for Students

## Family Educational Rights and Privacy Act (FERPA)

In accordance with the Family Educational Rights and Privacy Act (FERPA), it is the general policy of Westchester Community College not to release any information concerning a student to a third party without the student's written consent. However, the law allows schools to disclose "directory" type information such as a student's name, address, telephone number, date of birth and dates of attendance, without consent, to the following parties:

- School employees who have an educational need to know;
- Other schools to which a student is transferring;
- Certain government officials in order to carry out lawful functions;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for the school;
- Accrediting organizations;
- Potential employers;
- Organizations connected with student loans, such as the National Student Loan Clearinghouse;
- Persons who need to know in cases of health and safety emergencies, and state and local authorities, pursuant to specific state law.

Although the parties listed above are exempt from the Family Educational Rights and Privacy Act provisions because it is deemed to be in the student's best interest for directory-type information to be released to them, any student who does not want to have this information released to the above parties can block this release by coming to the Registrar's Office to sign a "Nondisclosure Form."

## Policy on Drug and Alcohol Use

In compliance with the 1989 Drug Free Schools and Community Amendment Act relating to United States Public Law 101-226, Westchester Community College is a drug and alcohol free campus. Drug and alcohol abuse can devastate the college community, causing "accidents" and poor performance affecting college morale.

Possession, use or distribution of illegal drugs or alcohol on college property or at college-sponsored events will result in serious disciplinary action. Students could be expelled. Employees could be fired.

In addition to impacting the lives of others in dangerous ways, users of illegal drugs and alcohol subject themselves to serious health problems both now and for years into the future, including addiction, disease and loss of physical skills. The college, therefore, discourages students and employees from covering for co-workers or fellow students who are users, but rather encourages them to assist users in getting help. Students should seek out faculty members, counselors, the Student Health Office (914-606-6610) or Student Affairs Office (914-606-6731).

Further information on the legal ramifications and health consequences of drug and alcohol abuse is available in the college library and in the Offices of Student Health and Student Affairs.

## Withdrawal

For the fall semester, students may withdraw from a course without scholastic penalty through Nov. 5 (Nov. 6 for Saturday classes). If you find it necessary to completely withdraw from the college, you may do so through the last class day of the semester without academic penalty as long as you completely withdraw from all the courses for which you are registered.

## Completion Rates

Under the guidelines set forth by the federal *Student Right to Know Act*, the graduation rate for first-time, full-time, degree-seeking students in the Fall 2005 at Westchester Community College is **10.8%**.

The success rate for students recognizes that many students come to the community college with the intent of transferring before degree completion or may take longer to graduate. With these factors in mind, the success rate for the fall 2005 cohort is **54.2%**.

### 2005 First-Time Full-Time Students\*

<b>Total Success Story in 2005 Cohort</b>	<b>861</b>	<b>54.2%</b>

\* All students in this cohort are strictly defined by the Student Right to Know Act. They include those who were: (1) first-time students in Fall 2005; (2) attended full-time (12 credits or more); (3) were enrolled in an associate degree program in Fall 2005; and (4) graduated or transferred to a four-year college within three years (Fall 2008). Not included are students who transferred-in to Westchester Community College in Fall 2005, non-matriculated students, students transferring to two-year institutions, and students receiving a certificate.

## 19-Credit Maximum Per Semester

In accordance with college policy, students are not permitted to register for more than 19 credits per semester. Any exception to this policy must be approved in writing by both the student's curriculum chairperson as well as the appropriate associate dean.

## Parking Regulations

All students and staff must get parking decals at the Security Office, STC-113. Please have your automobile registration and tuition receipt with you. You will be given a detailed campus map and a list of parking and traffic regulations when you pick up your decal.

## Important Security Information

In compliance with the Federal Crime Awareness and Campus Security Act, Westchester Community College publishes an annual "Campus Security & Safety Report." This report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by the college; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies related to campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, bias crimes and other crimes. The Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the United States Department of Education. To obtain these crime statistics, access the U.S. Department of Education web site at: [www.ope.ed.gov/security/Search.asp](http://www.ope.ed.gov/security/Search.asp) To get a copy of the full report and crime statistics, contact the Security Office, Room 113 in the Student Center (914-606-6730) or access the following web site: [sunnywcc.edu/security](http://sunnywcc.edu/security)
